THE UNDERSIGNED THANKING THE PUBLIC IN Johnson Street, Victoria, V. 1. I. RAGAZZONI,

ment into which it has stupidly got, in denouncing the Standard for insisting that Victoria shall be named as the Terminus of the Trans-Continental Railway. It took three articles to express the hostility to Victorian Its hostility to Victorian supremacy; and even then it failed to accomplish more than a miserable straddle of the fence. In the first article it indulged in G. Norris, an old, tried, and never-finching confederate, suggested, last whine about the Terms of Confederation of Confederate, suggested, last tion. The Terms were excellent, it said; week, that a petition be sent to the Dometter far than anyone had proposed; and why not accept them? We say, certainly, why not accept them? The season, however, is perfectly plain why we will not accept them. It is not the latest of the people of Victoria, Esquitatest of the people of Victoria and th them. Yet in the face of the expected injury—an injury that is absolutely certain to occur, if the Terms should be adopted without an amendment to make this the Terminus—that "print" whines the Terminus whines the Ter about the matter as a serious mishap. Doubtless, it is a very serious personal misfortune to a few office-seekers in its employ to think that Confederation may possibly be delayed, unless terms be regotiated to guard our vested interests; but it would be a real calamity to every man who has a house and lot in this city, or an acre of land on this Island,
If his lot or his land were to sink in

Yet, in our judgment, the many who expect to live off of their accumulated industry on this Island, are heart and soul for Confederation. no delay whatever,—if a guarantee be given by Canada that the Railway Terminus shall be here. A Dock The following Ladies' and Gentlemen malt, a Lenatic Asylum, and a Surplus Revenue are all very well; but how much money will these institutions put in the pockets of our Island citizens, if the centre of trade—the commercial city here be destroyed to erect another somewhere on the Mainland? That is the question for all to answer. And if men should be indiscreet enough—improvident enough—to vote against their own interests-vote for what will impoverish themselves—they will only have themsure the Colonist for misleading them, after the injury has occurred; but no censure of such a concern will be likely to put fifty cents in any man's likely to put fifty cents in any man's local that any man's local tha and much more on the dollar, in case the mejority of our people do not in-sist on making the terminus a positive, absolute, and essential condition of Confederation. 'The same "print" prates of a continuance of the present government, The only amendment necessary to it, to Boiled Knuckles of Pork...122 cents a pound meet popular expectation, is to make the Pigs Feet Cooked five for....25 cents. Executive responsible. It only requires the people to say that they want these SPARS RIBS CHEAP, bring your baskets along and help yourself. We estimate it at its true value; but when a man has been reduced from comparative affinence to poverty, by grasping at the shadow instead of the substance, neither responsible government nor anything else will solace him for his mis-step. Hence, the sound and true policy for our people is to insist on having the Graving Dock, the Lunatic Asylum, the Naval Hospital, an elective Council, and Responsible Government, and also the terminus of the railway. The latter will benefit us if located here. It will infore us—more, it will nearly ruin us—if located elsewhere. The Colonist has also seld that Confederation will bring us semi-monthly steamers from San Francis- ROBERTSON & FARR co. But what value will they be to us, if the principal commercial depot be not here? Not a shadow more value than they would be to Nanaimo, if they ran there semi-monthly to take in a supply of coal. Their passengers and freight would move to the terminus of the rail—May and leave this city isolated.

If the choice of a Tariff be, as at present, a non sectarian Education should be largely increased; and the system placed on a more mere election either of that of Canada or that of British Columbia as either exists, I must, in Increased representation and Responsible order to coincide with you, choose that of Government I will strenously advocate.

I am of opinion that the Canadian Tariff should be at once accepted as being the means of lightening individual Taxation and means of lightening individual Taxation and tending to increase our commerce.

In Conclusion 1 may add that whilst the general wants of the whole Colony will ever be my study—your peculiar requirements will have my special attention.

The inducements to settle upon, clear and cultivate our lands will, at least, be diminished, and the benefits arising from the Union will neither be so great nor so pure as they ought and might be made, and probably are by many expected to a 3 O'CLOCK.

No alteration of the terms will be required for this purpose. I need scarcely add that the prosperity of Victoria and that of our producing interests are intimately connected and in some measure dependent upon each other.

The substitution of a purely representative and responsible for the present form of Government may be regarded as one of the consequences of Confederation.

minus of the Canadian Pacific Railroad must depend very much upon the objects the Canadian Government have in view is undertaking such a gigantic work ; the cost and practicability of the various routes, the advantages of each for the purpose required. It is probable that the main object may be the acquisition of an easy, short and expeditious route to China and the East through British Territory, for the purpose, among others, of British and European commerce; Secondly, for domestic uses, such as the settlement of the country, rapidity of communication, defence and various others. For the purposes of commerce the Railway must have its terminus at some good seaport convenient to the Pacific Ocean and superior to that of its rival
—the North Pacific Railway. Vancouver
Island possesses such sea ports and is in reality
the "seaboard of British Columbia." The precise locality of the Terminus, however, must in reality be settled after the scientific survey shall have been completed. One of the officers said: There will be nothing serious to-day. There is too much mist in the valley." Certainly it seemed as if he must be right. When I was on the heights of Semicourt, I could not see the villages in the valley below, and the cathedral of Metz was utterly invisible, but the roar of the guns grew louder, and then came first one great boom and then another able object will be attained, and the Class pay for their wine, and consume all that they his dispositions with such adroitness, that were already all but complete. The artillery entered the village alone, and concentrated their fire on the French columns advancing along the Moselle.
